

# **HOTEL MENU SYSTEM**

**SUBMITTED BY: SHOAIB AKHTAR**

**ROLL NO: 20P-0147**

**SECTION: 3B**

**COURSE: Computer Organization and Assembly language**

## **DESCRIPTION:**

This project is made with NASM (16 bit). First of all you will get the menu then in menu there are three categories

- 1: Fast Food
- 2: Desi Food
- 3: Desserts

Now it's up to you what you are gonna choose. Whatever you're gonna choose, the food menu will appear according to this. After you are done with the menu it will calculate the bill and will display the thank you message.

## **Concepts used in this Project:**

- **Subroutines**
- **Jumps**
- **Printing the Menu on screen with Video Memory Concepts**
